Profile

Experienced Software Developer with 2+ years of expertise in designing scalable web applications. Proficient in Node.js, NestJS, React.js, and Laravel, with a proven track record of enhancing system performance and user engagement. Skilled in Agile methodologies, API integration, and microservices architecture.

Technical Skills

Languages: JavaScript, PHP, Html, TypeScript, Css
Frameworks/Libraries:: Node.js, Nest.js, Laravel, React.js, Express.js, Underscore.js, Yii2
Databases: MongoDB, MySQL
Tools/Platforms: Git, RESTful APIs, Tailwind CSS, Bootstrap, AWS (EC2, S3)
Other Skills: Microservices Architecture, API Integration, Agile Development, Third Party Integration

Experience

REDVision Tecnologies   July 2024 - Present
Full-Stack Developer   *Indore, Madhya Pradesh*
- Developed Wealth Elite, an AI-powered SaaS platform for financial advisors, integrating advanced Client Lifecycle Management (CLM) and portfolio reporting features.
- Optimized API performance by implementing scalable solutions, enhancing client decision-making capabilities.
- Successfully integrated third-party APIs to extend platform functionality, achieving seamless interoperability.

IMENSO Software   March 2023 - June 2024
Backend Developer   *Indore, Madhya Pradesh*
- Spearheaded the implementation of a microservices architecture with Node.js/Nest.js, improving API response time by 25% and reducing server load by 30%.
- Designed and deployed an Event Management system using Laravel PHP, streamlining scheduling, ticketing, and volunteer coordination.

Projects

Wealth Elite (AI-powered SaaS Platform for Financial Advisors) | *Yii2, Node.js, React.js, MongoDb, MySql*
- Designed and developed CLM and portfolio reporting features, enhancing financial advisor productivity and client engagement.
- Integrated financial calculators and third-party APIs, improving operational efficiency.

Job Tracker (Construct Engrave) | *Angular, Nest.js, MongoDb*
- Built a client work tracking system with robust reporting capabilities, including sales analytics and overdue payment management.
- Enhanced decision-making processes by implementing comprehensive customer reporting modules.

Leads Management | *Angular, Nest.js, MongoDb, Tailwind Css*
- Developed a microservices-based HRM platform, achieving a 40% increase in daily employee communication and activity tracking.

Event Management (Concerted Usa) | *Laravel, PHP, MySql, Bootstrap*
- Designed and implemented a scalable system for event scheduling, budgeting, and volunteer management, enhancing operational efficiency.
- Built a secure backend for real-time data management and dynamic frontend for event showcases.

Assessment Creation Tool for eLearning (THOR) | *PHP, MySql, Underscore.js, Bootstrap*
- Automated assessment creation, grading, and reporting for educational institutions and businesses, improving operational speed and accuracy.

Education

Vellore Institute of Technology, Bhopal   Aug 2023
Master of Computer Application (GPA: 7.69)   *Bhopal, Madhya Pradesh*
